Some Food for Thought

Avoid riding in Automobiles because they are responsible for 20% of all fatal accidents.

Do not stay home because 17% of all accidents occur in the home.

Avoid walking on streets or sidewalks because 14% of all accidents occur to pedestrians.

Avoid traveling by air, rail or water because 16% of all accidents involve those forms of transportation.

Of the remaining 33%, 32% of all deaths occur in hospitals. So, above all else, avoid hospitals.

But, you will be pleased to learn that only .0000001% of all deaths occur during Square Dancing. Thus logic tells us that Square Dancing is the safest place to be. It could save your life!
